

SENSPEX

Applied Science & Technology

FEATURES

- Portable “carry-on” size
- Assembled using COTS components to customers’ specifications
- 2U form-factor supports standard rack-mount network, power, and video components
- Supports larger external display
- Easily outfitted with ruggedized computer, network, and power components for increased environmental resilience
- Can be configured to support any type of analog or IP camera, from legacy color dome cameras to state-of-the-art thermal imaging systems

MVC2-2U

Field Video Control System

The MVC2-2U Field Video Control System provides a highly mobile solution for the control and recording of a network of analog or IP cameras. The analog-to-IP conversion system supports any type of common camera video or control signal, as well as COTS products from a large variety of camera manufacturers.

The system can be configured with any Microsoft® Windows®-based video management software suite including Genetec™ Omnicast™, OnSSI Ocularis™, Milestone XProtect™, and Riptide SIGHT™. If configured with Omnicast™, the customer has the option of adding Senspex Omnikeys™ for easy and rapid after action review (AAR) production.
